	Mercury Demo
Project Name	Mercury Demo
Url	Mercury demo
Tester	Palak Mangal
Date	15-Nov-2024

Bug_Id	Title	Steps to reproduce	Expected result	Actual result	Environment	Severity	Priority	Status	Screenshot	Comments
BUG_001	Incorrect search for Stock Tickers	1. Log into the platform 2. Navigate to the search bar on the dashboard 3. Enter Known stock tickers (e.g. "AAPL" for Apple) 4. Press Enter	The platform should return relevant results or suggestions for the stock ticket entered	No results are returned, and the user is not provided any feedback	Browser : Chrome Operating System : Windows 11 Device : Desktop	Medium	Mediun	Open	reenshot 2024-11-15 160208.p	the absence of relevant search results leads to user frustration, especially for finance-related queries like stock tickers
BUG_002	Invite recepients in send tab enter invalid email format	1. Open the link 2. enter valid credentials 3. redirected to the dashboard 4. then click on send 5. then click on "Invite Recepients" 6. Enter name and invalid format email	Displayed an error "Invalid email format"	Successfuly processed	Browser : Chrome Operating System : Windows 11 Device : Desktop	Medium	Medium	Open	Screenshot 2024-11-15 134	Null
BUG_003	Verify if there is a stock search tab in the navigation menu	1. log into the platform 2. Inspect the left-hand navigation bar 3. Look for any stock related options like "Stocks" , "Investments" , "Portfolio"	A stock search tab should be available if the platform supports this feature	No stock search or investment related tab is available	Browser : Chrome Operating System : Windows 11 Device : Desktop	Medium	Medium	Open	Screenshot 2024-11-15 155600	Absence of stock search or investment leads to user frustration
BUG_004	Misaligned Graph Data Points	1. Login into the mercury demo platform 2. View the balance trend graph on the main dashboard 3. hover over the data points for specific dates	Data points should align with transaction history and display correct amounts on hover	Data points are slightly off and do not correspond accurately with the transaction history	Browser : Chrome Operating System : Windows 11 Device : Desktop	Medium	Medium	Open	Screenshot 2024-11-15 160001	This can lead to misunderstandings of finiancial data for the users.
BUG_005	Inconsistents and unclear section labels in the Accounts section	1. log into the Mercury Demo platform 2. View the account section in the left-hand menu under Accounts 3. Notice the labels (e.g. "AP", "AR" , "Ops/Payroll", "Credit Card")	Each account should be clearly labeled and intuitive, with tooltips or description that abbreviations like AP (Accounts Payable) and AR (Accounts Receivable)	The abbreviations may be unclear to users who are not familiar with them , and there is no easy way to get more information on what these accounts represent	Browser : Chrome Operating System : Windows 11 Device : Desktop	Low	Low	Open	Screenshot 2024-11-15 160	the affect usability, particularly for new users who may not understand the terminology
